CONCORD INDUSTRIES

ISO 9001 COMPANY | IS: 694 | IS: 1293 | IS: 9968-1

About Us

Established in 1992, Concord Industries is a leading manufacturer of high quality moulded Power cords, electric wires and rubber cables servicing the home appliances sector for over 28 years. We have in house production facilities for Power cords, PVC cable, rubber cable and PVC compound with advanced CNC controlled machinery and quality control systems. We are BIS:694 and ISO 9000:1 certified, and a provider of ROHS Compliant wires.

Past and Future Visions

Incorporated in 1992

Quality

Induction of in-house PVC manufacturing for quality assurance and maintenance.

Power cord capacity/day: **30,000**

2015

Technology

Supply chain and manufacturing line has been updated using ERP solutions from leading provider

Power cord capacity/day: **45,000**

2018

Future Vision

We are further expanding our production capacity with 2 new manufacturing facilities in NCR

Power cord capacity/day: **65,000**

2020

Automation

In-house copper annealing plant and updating machinery with European technology (automation)

Power cord capacity/day: **95,000**

2022

Partnerships

Entering into strategic partnerships with customers for supply and delivery in other geographies (US, EU5 etc.)

Power cord capacity/day: **150,000**

2025
